

FIND KOHLER MODEL AND SERIAL NUMBERS

To Locate your model and serial number on your Kohler Engine:

When ordering parts, we will need the **Model, Specification and Serial Numbers** of the engine.

The engine identification numbers appear on a decal or decals, affixed to the engine. The **primary location** is on the side of the flywheel cover. Other locations where the label may be affixed are the engine shrouding. Placement of the decals may vary due to OEM requirements, specific options involved and also the type of Kohler Engine (AEGIS, TRIAD, COMMAND PRO CS, etc...)
